A. McELROY & Co.,
524 Walnut Street.

EDWARD YOUNG. E. T. FREEDLEY.

EDWARD YOUNG & CO.,

PUBLISHERS,

Have **REMOVED** from **441 CHESTNUT STREET**, to

144 South Sixth Street, above Walnut.

IN PRESS.

BISHOP'S HISTORY OF AMERICAN MANUFACTURES,

From 1608 to 1866.

THREE VOLS., OCTAVO, REVISED AND ENLARGED EDITION.

FREEDLEY'S PHILADELPHIA AND ITS MANUFACTURES.

A New Edition, corrected and adapted to the present time.

☞ Agents wanted for the above Works.

McELROY & CO.'S

Philadelphia City Directory,

COMPILED BY

A. McELROY,

AND PUBLISHED UNDER HIS SUPERVISION FOR

THIRTY YEARS.

OFFICE,

N.E. corner Chestnut and Seventh Streets,

PHILADELPHIA.

JOY, COE & CO.'S

Newspaper Advertising

AND

PUBLICATION AGENCY,

Established in 1857,

Has been removed from N. E. corner of Fifth and Chestnut Streets, to

No. 144 South Sixth Street, (second door above WALNUT,)

Near the NEW LEDGER BUILDING.

Advertisements are constantly sent through this Agency to the

NEWSPAPERS OF THE WHOLE COUNTRY,

and by means of the system of conjoint advertising thus rendered practicable, the expense to each advertiser is greatly reduced.

Advertisers save the postage and avoid the labor of corresponding with each publisher, the risk and expense of remittances, unreasonable and repeated calls of strangers with separate bills, the vexatious deceptions of Journals of dubious character, and losses from contracting with incompetent and irresponsible persons, and their advertisements are promptly and carefully inserted at the lowest rates.

Business men may learn through this Agency just what Journals to advertise in, to reach effectively and cheaply the sections wherein their trade may be extended.

☞ Advertisers receive copies of Journals in which their advertisements are inserted.

OFFICES: { **144 South Sixth Street, Philadelphia.**
Tribune Building, New York.

DAVIS & HARVEY, Auctioneers,
No. 421 Walnut Street. Real Estate, Furniture, &c.

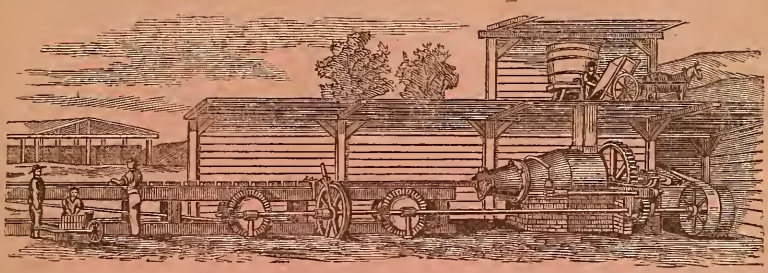
Chambers, Brother & Co.'s



CLAY TEMPERING

BRICK MACHINE.

This is believed to be the cheapest and best machine yet brought before the public for the economical production, in large quantities, of

Good, Strong, Durable Bricks.

It tempers the clay **with water,** without requiring any previous preparation. No soaking or drying necessary, but with once handling, converts the clay into

GOOD SQUARE BRICKS,

well mixing and tempering the clay. The bricks are then ready to dry in **hacks** under sheds, or to pass **direct through the Dryer,** which dries them artificially,

BETTER AND CHEAPER

than it can be done in the sun or under shedding.

Many of these Machines are now in operation, and for five years past have withstood the test of practice, and grown in favor. With the Dryer they may be run all seasons.

We warrant them to be all we represent.

An examination of the Machine and the Bricks is solicited.

Send for a Circular.

G. P. ROWELL & CO.,

ADVERTISING AGENTS,

23 Congress Street,

BOSTON.

Branch Office, 58 Cedar Street, N. Y.

GEO. P. ROWELL. HORACE DODD, 2d.

Advertisements received for **all** newspapers throughout the country, at publishers' regular rates.

Particular attention paid to all orders for advertising in **Boston** and **New York City** papers.

Lists of principal papers in the large cities, with the prices for any advertisement for a given time, furnished on application, without charge.

All first class Religious, Agricultural, and Literary Publications, having a large circulation, may be found at our office, and special attention is paid to orders for advertising in them.

Parties who favor us with their orders are assured that they shall receive prompt and careful attention.

Files of Newspapers from all sections of the country are to be seen at our office, and are at the service of all who wish to refer to them.

Business men wishing to advertise in any part of the country, can send their orders to us. The cost is no more, as the Agent's commission comes from the publisher.

Small orders receive the same attention as large ones; no matter how small or how large, they will be promptly executed.

DAVIS & HARVEY, Auctioneers,
No. 421 Walnut Street. Real Estate, Furniture, &c.

OILS FOR ALL KINDS OF MACHINERY—Warranted not to gum or chill in the coldest weather, at about one-third the price of lard oil. Having obtained the sole agency for what has been pronounced by all who have given it a trial to be the best lubricating oil in use, not excepting the best of sperm or lard oils, we feel warranted in making the following offer to any party who wish to give our oil a trial. We, if the oil does not prove satisfactory, will take it back and return the money, if paid, and make no charge for the quantity (not exceeding five gallons) used to test it, and will also pay the cost of transportation both ways. W. Barnet Le Van's

Patent Grate Bars.

Fig. 1. Represents a side elevation showing tenons.

Fig. 2. Represents a side elevation, showing mortice.

Fig. 3. Represents a plan of bars in place

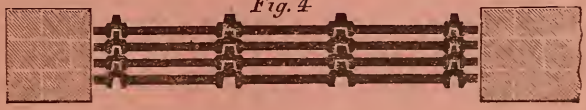
Fig 4. Represents a sectional plan of bars in place showing mortices and tenons together.

Fig. 1

Fig. 2

Fig. 3

Fig. 4



Scale, one-half inch equal one foot.

Illustrated Circulars with reference sent on application.

These bars have been thoroughly tried in every description of furnace, locomotive, marine and stationary, and are now, with perfect confidence, placed before the public as the most durable, and, in every other respect, the most efficient bar yet invented.

Thin bars are known by scientific engineers to be the best, but there has hitherto been an insurmountable difficulty in keeping them in position, from their invariable bending and giving way, requiring frequent renewal, thus causing continual expense. This difficulty the Patent Bar entirely overcomes. Thick bars only fill the furnace with iron, leaving insufficient space for the passage of air, causing the gasses to escape without being consumed, which produces great loss in fuel.

The Patent Bars can be made of any thickness, from three-eighths of an inch upwards, and will not give way in the fiercest fires, but will remain perfectly straight until burned out by long service. Thus the loss of fuel caused by the deflection which takes place in ordinary bars is prevented. Over five hundred tons in use in this city. One set was used for over *six years* working *day and night*, in the office of the "Philadelphia Inquirer," another at the Riverside Mills for eight years.

W. Barnet Le Van,

ENGINEER, MACHINIST & IRON FOUNDER,

MANUFACTURER OF

Steam Engines. Boilers, Shafting, Hangers and Pulleys,

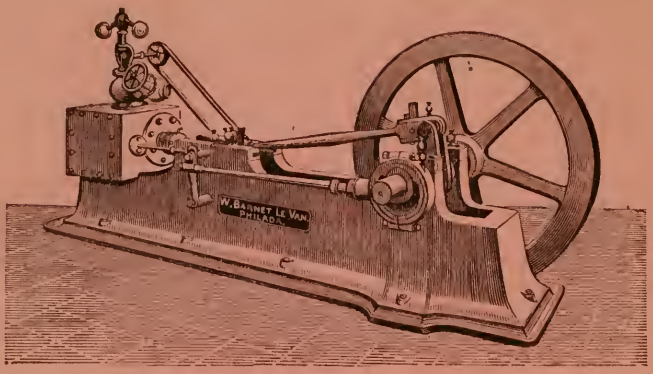
COVERNORS AND PUMPS,

STEAM AND HAND HOISTING MACHINERY, &c, &c.

Twenty-fourth and Wood Streets,

PHILADELPHIA.

Le Van's
Horizontal Engines.



These Engines require no *expensive foundations;* are suitable for every description of work, and possess unusual capacities and strength for the horse-power assigned to them. The liberal use of wrought iron and steel in their construction make them the most desirable in the market.

Le Van's Governor with Balance Valve.

Medal Awarded By the American Institute. 1865, New York.

These Governors are now in extensive use, and we are permitted to refer to parties using them, including many leading establishments in all parts of the country. They are so simple in their construction and operation as to require very little care. They perfectly regulate the speed of any engine under the most sudden changes of resistance. Their sensibility is so great that they detect at once any irregularity in the motion of the crank shaft.

The simplicity of design and ease of construction, and small amount of material employed, allow these Governors to be offered at a lower price than any good Regulator now made.

LE VAN'S BOILER FEED PUMP.

SINGLE ACTING FOR HOT OR COLD WATER.

Complete in itself, with double wrought iron crank-shaft and connecting rod. Fast and loose pulleys; steam metal valves; fitted up in the best manner.

Circulars and Photographs sent on application, and entire satisfaction guaranteed in all cases.

W. Barnet Le Van,

S. E. Cor. 24th and Wood Streets, Philadelphia.
